Peter Edwards, Williamsville, N. Y. Tells Safe, Certain, Speedy Relief For Acid Indigestion.

> So-called stomach troubles, such as indigestion, gas, sourness, stomachache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion. Gas distends the stomach and causes

> that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid. To stop or prevent this souring of

the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisurated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever Gilbert Vetting, Egg Harbor, Wis. gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a John J. Zankowich, Jersey City, N.J. perfectly harmless and inexpensive remedy to use.

An antiacid, such as bisurated magnesia which can be obtained from any druggist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestents. Magnesia comes in several forms, so be certain to ask for and take only Bisurated Magnesia, which is especially prepared for the above purpose.-Advertisement

THIN PEOPLE NEED BITRO-**PHOSPHATE**

and Nerve Force in Two Weeks Time in Many Instances.

"Take plain bitro-phosphate" is the advice of physicians to thin, delicate, nervous people who lack vim energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fiestly developing arms, neck and bust, and replacing ugly hollows and antices by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

more phosphate than is contained in modera foods. Physicians claim there is nothing that will supply this deficiency so we' as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food clements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervounces, sleeplessness and lack of energy, which nearly always accompany excessive thinness soon disappear, dull eyes become bright and pale chesks glow with the bloom of perfect health.

PROPOSED AMENDMENT TO THE CONSTI-TUTION-HOUSE JOINT RESOLUTION NUMBER EIGHT.

A resolution proposing an amendment to Section 3, Article 13 of the Constitution of the State of Utah, relating to uniform taxes and

Section 3 of Article XIII of the Constitution of the State of Utah so that the same will read as follows:

Section 3. The Legislature shall provide by law a uniform and equal rate of assessment and taxation on all property in the State, as cording to its value in money, and shall prescribe by general law such regulations as shall secure a just valuation for taxation of all property, so that every person and corporation shall pay a tax in proportion to the value of his, her or its property. Provided, that a deduction of debits from credits may be authorized: Provided further, That the property of the United States, of the State, counties, cities, towns, school districts, municipal corporations and public libraries, lots with the buildings thereon used exclusively for either religious worship or charitable purposes, and places of burial not held or used for private or corporate benefit, shall be exempt from taxation. Ditches, canals, reservoirs, pose and flumes owned and used by individuals or corporations for irrigating lands owned by such individuals or corporations, or the individual members thereof, shall not be separately taxed as long as they shall be owned and used exclusively for such purpose: Provided further. That morigages upon both real and personal property shall be exempt from taxation. Provided further, That the taxes of the indigent poor may be remitted or abated at such time and in such manner as may be provided by law: Provided, forther. That the Legislatur may previde for the exemption from taxation of homes, homesteads, and personal property.

Section 2. The Secretary of State is directed to cause this proposed amendment to be published as required by the Constitution and to be submitted to the electors of the State at the next general election in the manner provided by law.
